

## Job Redesign Solution Sourcing

1. The National Trades Union Congress' Employment and Employability Institute (NTUC's e2i) and the Singapore National Employers Federation (SNEF) are seeking to work with solution providers that have scalable, innovative and easily implementable solutions that can help companies create easier, safer and smarter workplaces benefiting older workers. This is supported under WorkPro, a programme developed by the Ministry of Manpower (MOM) and Workforce Singapore (WSG) to encourage employers to create an age-friendly workplace. NTUC's e2i and SNEF are the appointed WorkPro Programme Partners to administer the programme.
2. Specifically, the WorkPro Job Redesign Grant (JRG) funds companies' job redesign (JR) projects that will lead to the creation of easier, safer and smarter jobs for older workers. The funding support is extended (but not limited) to the purchase of equipment and/or technology that will help to:
  - a. Reduce physical efforts by automating processes (Easier)
  - b. Minimize risks of injuries (Safer)
  - c. Enhance older workers' personal productivity (Smarter)
3. Under the Job Redesign Solution Sourcing (JRSS), NTUC's e2i and SNEF will explore collaboration opportunities at suitable platforms involving employers such as workshops and seminars, for solution providers to share the solutions to increase companies' awareness and adoption on readily available market solutions. Companies looking to adopt the solutions can consider Government funding through JRG to defray part of the implementation costs.
4. Solution providers interested to collaborate with NTUC's e2i and SNEF can fill up the template in **Annex A** to provide more information on your solutions, as well as how the solutions can potentially create a more age-friendly workplace for older workers. Please send the completed template to either NTUC's e2i ([followup@e2i.com.sg](mailto:followup@e2i.com.sg)) or SNEF ([JRSS@snef.org.sg](mailto:JRSS@snef.org.sg)).

## Annex A

### Solution Provider Template

Please complete the template appended and email to NTUC's e2i ([followup@e2i.com.sg](mailto:followup@e2i.com.sg)) or SNEF ([JRSS@snef.org.sg](mailto:JRSS@snef.org.sg)).

<b><u>Solution Provider Template</u></b>  If you would like to provide information on more than 1 solutions, please create additional columns.	<a href="#">Click here to download</a>
